Part one contains Grammar, part two – Aids to Vocabulary, and part three – Writing Skills. • The section dealing with Grammar is in double color. The points given in pink color suggest importance or emphasis, so they need attention and will help you to understand quickly and easily. These points are further highlighted with arrows. • Text printed on-screen suggests points likely to misunderstand. Sometimes they explain subtle distinctions between two apparently similar points. • Grammar items are discussed very systematically – one at a time. Plentiful illustrations are followed by carefully designed exercises. • There is an exhaustive section dealing exclusively with Multiple choice questions covering all the areas of Grammar as well as Vocabulary. It will help to get familiar with the latest evaluation pattern. • The chapter on vocabulary is adequate and it has been kept within manageable proportions. • The chapter on Precis writing under the section Writing Skills contains a large number of solved examples, which fully explain how to analyze a passage, how to prepare a rough draft and then turn out a good readable and adequate final precis. They are followed by passages provided with aids to vocabulary and detailed outlines. The passages selected for precis writing cover a wide range of interests and have been carefully graded. • There is a comprehensive section on letter writing covering personal, business, and official correspondence. While it explains the requisites of the good letter—its style, layout – it also provides a number of model letters for quick guidance

Knowledge updating is a never-ending process and so should be the revision of an effective textbook. The book originally written fifty years ago has, during the intervening period, been revised and reprinted several times. The authors have, however, been thinking, for the last few years that the book needed not only a thorough revision but rather a substantial rewriting. They now take great pleasure in presenting to the readers the twelfth, thoroughly revised and enlarged, Golden Jubilee edition of the book. The subject-matter in the entire book has been re-written in the light of numerous criticisms and suggestions received from the users of the earlier editions in India and abroad. The basis of this revision has been the emergence of new literature on the subject, the constructive feedback from students and teaching fraternity, as well as those changes that have been made in the syllabi and/or the pattern of examination papers of numerous universities.
