~~"In the spring of 1957, when he was eighty-one years old, C. G. Jung undertook the telling of his life story. At regular intervals he had conversations with his colleague and friend Aniela Jaffé, and collaborated with her in the preparation of the text based on these talks. On occasion, he was moved to write entire chapters of the book in his own hand, and he continued to work on the final stages of the manuscript until shortly before his death on June 6, 1961." --Amazon web site.~~

~~An eye-opening biography of one of the most influential psychiatrists of the modern age, drawing from his lectures, conversations, and own writings. In the spring of 1957, when he was eighty-one years old, Carl Gustav Jung undertook the telling of his life story. Memories, Dreams, Reflections is that book, composed of conversations with his colleague and friend Aniela Jaffé, as well as chapters written in his own hand, and other materials. Jung continued to work on the final stages of the manuscript until shortly before his death on June 6, 1961, making this a uniquely comprehensive reflection on a remarkable life. Fully corrected, this edition also includes Jung's VII Sermones ad Mortuos.~~

~~"From The collected works of C.G. Jung, volumes 4, 8, 12, 16"--P. [i].~~

~~Written three years before his death, The Undiscovered Self combines acuity with concision in masterly fashion and is Jung at his very best. Offering clear and crisp insights into some of his major theories, such as the duality of human nature, the unconscious, human instinct and spirituality, Jung warns against the threats of totalitarianism and political and social propaganda to the free-thinking individual. As timely now as when it was first written, Jung's vision is a salutary reminder of why we should not become passive members of the herd. With a new foreword by Sonu Shamdasani.~~

~~In this, the first full-length biography of the great Swiss psychologist, Carl Gustav Jung is remembered not only for his valuable contribution to psychotherapy and to our understanding of the inner workings of the mind, but for the enduring controversies he sparked. In Frank McLynn's capable hands, readers will come to understand the man who originated what are widely held to be some of the greatest ideas of this century.~~

~~Volume 7 (1964-66) is introduced by the senior Milanese analyst Anna Ferruta and contains an important selection of articles and letters from this very productive period of Winnicott's working life including articles on the false self, psychosis, psychosomatic illness, regression, children's thinking, trauma, aggression, dissociation, psychoanalytic research, male and female elements, guilt, the unconscious and a selection of letters on psychoanalytic and more general topics.~~

~~Modern Man in Search of a Soul is the perfect introduction to the theories and concepts of one of the most original and influential religious thinkers of the twentieth century. Lively and insightful, it covers all of his most significant themes, including man's need for a God and the mechanics of dream analysis. One of his most famous books, it perfectly captures the feelings of confusion that many sense today. Generation X might be a recent concept, but Jung spotted its forerunner over half a century ago. For anyone seeking meaning in today's world, Modern Man in Search of a Soul is a must.~~

~~In this compact volume, British psychiatrist and writer Anthony Storr has selected extracts from Jung's writings that pinpoint his many original contributions and relate the development of his thought to his biography. Storr's explanatory notes and introduction show the progress and coherence of Jung's ideas. These notes link the extracts, and with Dr. Storr's introduction, they show the progress and coherence of Jung's ideas, including such concepts as the collective unconscious, the archetypes, introversion and extroversion, individuation, and Jung's view of integration as the goal of the development of the personality.Jung maintained that we are profoundly ignorant of ourselves and that our most pressing task is to deflect our gaze away from the external world and toward the study of our own nature. In a world torn by conflict and threatened by annihilation, his message has an urgent relevance for every thoughtful person.~~

~~Jung ' s legendary American lectures on dream interpretation In 1936 and 1937, C. G. Jung delivered two legendary seminars on dream interpretation, the first on Bailey Island, Maine, the second in New York City. Dream Symbols of the Individuation Process makes these lectures widely available for the first time, offering a compelling look at Jung as he presents his ideas candidly and in English before a rapt American audience. The dreams presented here are those of Nobel Prize–winning physicist Wolfgang Pauli, who turned to Jung for therapeutic help because of troubling personal events, emotional turmoil, and depression. Linking Pauli ' s dreams to the healing wisdom found in many ages and cultures, Jung shows how the mandala—a universal archetype of wholeness—spontaneously emerges in the psyche of a modern man, and how this imagery reflects the healing process. He touches on a broad range of themes, including psychological types, mental illness, the individuation process, the principles of psychotherapeutic treatment, and the importance of the anima, shadow, and persona in masculine psychology. He also reflects on modern physics, the nature of reality, and the political currents of his time. Jung draws on examples from the Mithraic mysteries, Buddhism, Hinduism, Chinese philosophy, Kundalini yoga, and ancient Egyptian concepts of body and soul. He also discusses the symbolism of the Catholic Mass, the Trinity, and Gnostic ideas in the noncanonical Gospels. With an incisive introduction and annotations, Dream Symbols of the Individuation Process provides a rare window into Jung ' s interpretation of dreams and the development of his psychology of religion.~~

~~Presents the Swiss psychologist's thoughts, experiences, and everything he felt after a period of time spent seeing visions, hearing voices, and inducing hallucinations.~~
