This book presents a summary of the key ideas that seek to explain criminal behaviour and the measures that have been developed to prevent crime. A broad overview of the criminal justice system is provided in order to explain the operations of the key criminal justice agencies and the processes that are involved in bringing offenders to justice. Readers are encouraged to develop the basic knowledge they have obtained in these areas by tackling a number of questions, making use of additional reading of key texts suggested in the book. Attention is devoted to key sources from which information regarding crime and the criminal justice system can be explained. Good practice regarding the presentation and assessment of written work is also provided, in particular in connection with referencing. Readers are also introduced to the wide variety of methods that can be used to carry out criminological research and are invited to engage in exercises that include the marking of sample essays and the design of a questionnaire.

Law Express: Exam Success is designed to help you to relate all your reading and study throughout your course specifically to exam situations. Understand quickly what is required, organise your revision, and learn the key points with ease, to get the grades you need. Tested with examiners and students.

The Law Express series is designed to help you revise effectively. This book is your guide to understanding essential concepts, remembering and applying key legislation and making your answers stand out!

This text offers an engaging and wide-ranging account of crime and criminology. It provides a clear and comprehensive consideration of the theoretical, practical, and political aspects of the subject, including the influence of physical, biological, psychological, and social factors on criminality.

Written by Peter Joyce, who is a current criminology lecturer and a leading researcher, Criminology - The Essentials is designed to give you everything you need to succeed, all in one place. It covers the key areas that students are expected to be confident in, outlining the basics in clear jargon-free English, and then providing added-value features like summaries of key books, and even lists of questions you might be asked in your seminar or exam. The book uses a structure that mirrors many university courses on criminology - starting with definitions of crime, then examining why people commit crime, and how crime can be prevented and detected. Later chapters hone in on the criminal justice system itself, examining the role of the police, the courts and prisons. This book is unique for its comparative approach to criminology, enabling students to understand criminology in the context of the UK, the US and further afield. Teach Yourself titles employ the 'Breakthrough method', which is designed specifically to overcome problems that students face. - Problem: 'I find it difficult to remember what I've read. '; Solution: this book includes end-of-chapter questions and summaries - Problem: 'Most books mention important other sources, but I can never find them in time. '; Solution: this book includes key texts and case studies are summarised, complete with fully referenced quotes ready to use in your essay or exam. - Problem: 'Lots of introductory books turn out to cover totally different topics than my course. '; Solution: this book is written by a current university lecturer who understands what students are expected to know.

Criminology Skills covers both criminological study skills and research skills in one volume, giving you the skills you need to succeed in the study of criminology. A three-part structure covers finding source materials, academic skills, study skills, and research methodology, guiding you through a range of skills and methods which you will need to practise and demonstrate in your degree. Topics covered include finding and evaluating criminological resources, referencing and avoiding plagiarism, preparing for exams, planning a research project, data analysis and much more. Criminology Skills first helps you to establish a strong and comprehensive skills foundation before building to a more advanced level, increasing your competence and confidence with which to approach projects. The text is accompanied by an innovative and dynamic Online Resource Centre which includes practical exercises, animated walk-throughs showing how to use online databases, and activities to help test your understanding of ethical considerations and of the differences between quantitative and qualitative research methods.

Policing in the United States is at a crossroads; decisions made at this juncture are crucial. With the emergence of evidence-based policing, police leaders can draw on research when making choices about how to police their communities. Who will design the path forward and what will be the new standards for policing? This book brings together two qualified groups to lead the discussion: academics and experienced police professionals. The School of Criminology and Criminal Justice at Arizona State University recruited faculty with expertise in policing and police research. This volume draws on that expertise to examine 13 specific areas in policing. Each chapter presents an issue and provides background before reviewing the available research on potential solutions and recommending specific reform measures. Response essays written by a current or former police leader follow each chapter and reflect on the recommendations in the chapter. The 13 chapters and response essays present new thinking about the police, their challenges, and the reforms police agencies should consider adopting. Policy makers, practitioners, educators, researchers, students and anyone interested in the future of policing will find valuable information about: the benefits of adopting evidence-based policing; leading strategic crime-control efforts; instituting procedural justice to enhance police legitimacy; reducing use of force; combatting racially biased policing; establishing civilian oversight; implementing a body-worn camera program; creating sentinel event reviews; developing police-university collaborations; facilitating organizational justice in police departments; improving officer health and wellness; handling protests; and increasing the effectiveness of police responses to sexual assault.
