Richer Than A Millionaire A Pathway to True Prosperity Having taught thousands of students over our careers, it is clear to the authors that many young people are clueless about their direction in life. Yes, they want a career, and yes, they want a good life, but knowing what to do is to many quite a challenge. Some say they want to be rich, but they really don't know what that means. In a sense, to paraphrase the Italian Renaissance polymath Leonardo da Vinci, many are like ships on the high seas of life without rudders! They have tremendous potential but no direction. In our book, Richer Than A Millionaire A Pathway to True Prosperity, we hope to inspire and to point all people (but especially young adults and concerned parents and grandparents who want sound advice for the next generation) in what we believe is the right direction. This direction has been reinforced by over forty years of academic and consulting research on what it really means to be rich. Our approach relies heavily on tried-and-true social science research methods of personal interviews and large-scale structured surveys. In other words, we have more than our personal opinions to offer. While there are many self-help books about wealth or happiness, we believe our book is unique in that it combines these topics. We show that it is possible to be modestly wealthy and happy. In order to reach true prosperity- health, happiness, and wealth, in all likelihood behavior modification will be required. And change is hard. Benjamin Franklin understood this, as he concluded in The Way to Wealth essay 250 years ago: the people heard the advice, agreed with it, and then practiced the contrary.

Secrets of the Millionaire Mind reveals the missing link between wanting success and achieving it! Have you ever wondered why some people seem to get rich easily, while others are destined for a life of financial struggle? Is the difference found in their education, intelligence, skills, timing, work habits, contacts, luck, or their choice of jobs, businesses, or investments? The shocking answer is: None of the above! In his groundbreaking Secrets of the Millionaire Mind, T. Harv Eker states: "Give me five minutes, and I can predict your financial future for the rest of your life!" Eker does this by identifying your "money and success blueprint." We all have a personal money blueprint ingrained in our subconscious minds, and it is this blueprint, more than anything, that will determine our financial lives. You can know everything about marketing, sales, negotiations, stocks, real estate, and the world of finance, but if your money blueprint is not set for a high level of success, you will never have a lot of money—and if somehow you do, you will most likely lose it! The good news is that now you can actually reset your money blueprint to create natural and automatic success. Secrets of the Millionaire Mind is two books in one. Part I explains how your money blueprint works. Through Eker's rare combination of street smarts, humor, and heart, you will learn how your childhood influences have shaped your financial destiny. You will also learn how to identify your own money blueprint and "revise" it to not only create success but, more important, to keep and continually grow it. In Part II you will be introduced to seventeen "Wealth Files," which describe exactly how rich people think and act differently than most poor and middle-class people. Each Wealth File includes action steps for you to practice in the real world in order to dramatically increase your income and accumulate wealth. If you are not doing as well financially as you would like, you will have to change your money blueprint. Unfortunately your current money blueprint will tend to stay with you for the rest of your life, unless you identify and revise it, and that's exactly what you will do with the help of this extraordinary book. According to T. Harv Eker, it's simple. If you think like rich people think and do what rich people do, chances are you'll get rich too!

How do the rich get rich? An updated edition of the "remarkable" New York Times bestseller, based on two decades of research (The Washington Post). Most of the truly wealthy in the United States don't live in Beverly Hills or on Park Avenue. They live next door. America's wealthy seldom get that way through an inheritance or an advanced degree. They bargain-shop for used cars, raise children who don't realize how rich their families are, and reject a lifestyle of flashy exhibitionism and competitive spending. In fact, the glamorous people many of us think of as "rich" are actually a tiny minority of America's truly wealthy citizens—and behave quite differently than the majority. At the time of its first publication, The Millionaire Next Door was a groundbreaking examination of America's rich—exposing for the first time the seven common qualities that appear over and over among this exclusive demographic. This edition includes a new foreword by Dr. Thomas J. Stanley—updating the original content in the context of the financial crash and the twenty-first century. "Their surprising results reveal fundamental qualities of this group that are diametrically opposed to today's earn-and-consume culture." —Library Journal
