and represents a form of resistance against globalizing influences, but the Basque and Georgian cases prove that globalization and nationalism can be complementary rather than contradictory tendencies.

Nationalists have often served as promoters of globalization, seeking

out globalizing
influences and
engaging with global
actors out of their very
nationalist interests.

In the case of both

Discusses why, on a broader scale, different forms of nationalism develop differing attitudes towards globalization and engage in different relationships. Conventional wisdom suggests that sub-state nationalism in the post-Cold War era is a product of globalization.

File Type PDF Nationalism In

Sabanadze's work encourages a rethinking of this proposition. Through careful analysis of the Georgian and Basque cases, she shows that the principal dynamics have little, if anything, to do with globalization and much to do with the political context and historical framework
