The Teachers Resource Book will show how the course provides an underpinning structure to the teaching of English, focusing particularly on the knowledge, skills and understanding of writing, while giving ample opportunity for reading, listening and speaking.

This is part of a six-level English course (foundation-level to level five) for pupils between five and 12-years-old. The course employs a twin-track structure that enables teachers to underpin students' language development with a rigorous skills programme. There are two pupil's books at each level: a skills book, covering comprehension (with emphasis on literal), grammar, punctuation, vocabulary and spelling; and a development book, covering comprehension (with emphasis on inferential), the craft of quality writing, forms of writing, styles of writing and composition skills. Each level also has a teacher's resource book which supports both tracks, includes photocopiable activity sheets and correlations for all UK curricula, suggests strategies for developing listening and speaking skills, and helps support record-keeping and assessment.

Nelson English International is a structured English course, which has been specifically developed to meet the requirements of overseas students.

Clear structure and presentation - designed for easy and effective classroom delivery Draws together components from the whole programme and provides guidance on how to use them effectively For each unit the NLS objectives are stated providing you with the reassurance that the curriculum is comprehensively covered
