The position 'near enough' to physicalism endorsed at the end holds that, with the exception of the intrinsic features of phenomenal states, mental properties are physically reducible via functional analysis.—D. Gene Witmer, Mind Kim's Physicalism, or Something Near Enough presents philosophy at its best. The arguments contained in it are interesting and stimulating, and the discussion of opposed views is fair and highly productive.

Physicalism, or Something Near Enough | Princeton ...

Physicalism is not the whole truth, but it is the truth near enough, and near enough should be good enough." Jaegwon Kim's account of a functionally-reducing physicalist approach to the philosophy of mind is, for the most part, clear, thoughtful, and relat "The position is, as we might say, a slightly defective physicalism—physicalism manque but not by much.

Physicalism, or Something Near Enough

Jaegwon Kim, Physicalism, Or Something Near Enough, Princeton University Press, 2005, 200pp, \$26.95 (hbk), ISBN 069113750. Reviewed by Andrew Melnyk, University of Missouri, Columbia. This book consists of six chapters, four of which are versions of material that can be found elsewhere. For three reasons, however, the book is essential reading for any philosopher with a serious interest in the metaphysics of mind: first, after several decades of often rather diffident reflection on the ...
