Twenty-two leading scholars offer a comprehensive guide to American religious history--from colonial times to today--organized topically, in a resource that includes an extended glossary and bibliographies listing relevant books, films, articles, music and media resources.

Teaches a basic note-taking process and gives specific source ideas and subject headings for a variety of topics. Grades 3-8.

Help students get the most out of studying medieval history with this comprehensive and practical research guide to topics and resources. \* Covers 100 significant events across four continents, between 410 C.E. and 1485 C.E. \* Offers an easy-to-use chronological organization that facilitates research and saves time for students, faculty, and librarians \* Includes an annotated bibliography of primary source materials for each topic

Globalization and high-speed communication put twenty-first century people in contact with adherents to a wide variety of world religions, but usually, valuable knowledge of these other traditions is limited at best. On the one hand, religious stereotypes abound, hampering a serious exploration of unfamiliar philosophies and practices. On the other hand, the popular idea that all religions lead to the same God or the same moral life fails to account for the distinctive origins and radically different teachings found across the world's many religions. Understanding World Religions presents religion as a complex and intriguing matrix of history, philosophy, culture, beliefs, and practices. Hexham believes that a certain degree of objectivity and critique is inherent in the study of religion, and he guides readers in responsible ways of carrying this out. Of particular importance is Hexham's decision to explore African religions, which have frequently been absent from major religion texts. He surveys these in addition to varieties of Hinduism, Buddhism, Judaism, Christianity, and Islam.

Offers activities to students that describe the major themes in world history between 300 and 1000 C.E., including the growth and spread of world religions, the rise of Islamic civilization, and the expansion of trade and technology throughout the world.
