One of the most powerful forces in business today is the positive psychology movement -- overcoming self-defeating attitudes and developing our talents and positive traits. Much of the new thinking, in fact, stems

Online Library The Power Of Positive Thinking

directly from the concepts
in Norman Vincent Peale's
great classic bestseller,
The Power of Positive
Thinking, which has been
translated into forty-two
languages and has sold over
22 million copies. Now,

Online Library The Power Of Positive Thinking

after years of extensive research and field testing, working in cooperation with the Peale Center and major corporations nationwide, Scott Ventrella has adapted those concepts into a systematic program for

Online Library The Power Of Positive Thinking

people in business to
achieve greater levels of
personal and professional
performance. The Power of
Positive Thinking in
Business provides a
practical way for each of us
to develop and actually

Online Library The Power Of Positive Thinking

strengthen the ten traits of
a positive thinker.

Inevitably, our performance
rises to new levels when we
learn how to overcome
negative attitudinal
barriers such as fear, lack
of self-confidence, and low

self-esteem, and instead
develop the traits that
characterize a positive
thinker: optimism,
enthusiasm, belief,
integrity, courage,
confidence, determination,
patience, calmness, and

focus. The Power of Positive Thinking in Business encourages us to concentrate on objective, rational thinking instead of self-limiting beliefs and negative self-talk. The result is an increased

Online Library The Power Of Positive Thinking

ability to deal effectively with tough situations and difficult people, in both business environments and personal lives. Together, rational thinking and the ten traits of a positive thinker can turn defeatist

Online Library The Power Of Positive Thinking

behavior into productive actions that will overcome the toughest of challenges with powerful, positive results. Best of all, these practical yet powerful concepts are applicable to businesspeople at all

Online Library The Power Of Positive Thinking

levels, disciplines, and functions within an organization, and have been adapted to appeal to people of all faiths.
