6 Tips for Making the User Experience Team More Useful to ...  
With regard to communicating results and reports, the user experience team had to be aware of the delicate balance between local businesses' desire to know the results from their market as soon as possible and waiting until all findings were collated so that the key messages, concerning the product as a whole, could be effectively delivered. It was also necessary to be mindful of the fact that the key stakeholder was the U.S. business unit, which was mainly funding the entire release, and ...

TextBook The User Experience Team Of One A Research And ...  
Testing one user early in the project is better than testing 50 near the end- Steve Krug. UX is a mindset that should be shared by the whole team. It is the team's way of empathising with your users and being inquisitive about what they want. In this way UX isn't a single step in a process but a skill that must be applied at each stage.
