Wildlife in captivity. Hundreds of thousands of wild animals are kept in captivity in zoos, safari parks and marine parks throughout the world, many living in the most appalling conditions, with no enrichment or stimulation, causing both physical and psychological suffering. Change For Animals Foundation maintains that the keeping of wildlife in captivity for the purposes of entertainment is not ethically justifiable, and is committed to raising awareness of the plight of these animals ...

## **Wildlife in captivity - change for animals**

Zoos prefer having baby animals (for attracting attention). However, when the animals mature, zoos quickly sell or trade them. They keep capturing wild animals for profit. As previously

Most zoos don't provide the right kind of care for wild animals. This can mean cramped spaces and an improper diet. Just think about how you would feel trapped in a concrete cage for about 50 years! Zoos sell animals and break bonds between animals that have been together since birth. Captivity can also lead to overpopulation.

### **Should wild animals be kept in captivity? | Debate.org**

Although many animals see a reduction in their lifespan because of captivity or attempts at domestication, this outcome does not occur with all species. Sea lions live an average of 10 years longer when they are in captivity. Giraffes and tigers can also live an average of five years longer when they are in a protected
